DETAILED ACTION

Claim Rejections - 35 USC § 112

- 1. The following is a quotation of the second paragraph of 35 U.S.C. 112:
 - The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 2. Claim 5 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 is indefinite due to the use of "a dimension perpendicular to the haze-prevention layer and the reflective metal layer". It is unclear to the examiner what Applicants are trying to convey.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.
- 4. Claims 1-19 are rejected under 35 U.S.C. 102(e) as being anticipated by Baal et al. (US Pat. 6,355,723).

The applied reference has a common Assignee with the instant application. Based upon the earlier effective U.S. filing date of the reference, it constitutes prior art under 35 U.S.C.

Application/Control Number: 10/638,099

Art Unit: 1711

102(e). This rejection under 35 U.S.C. 102(e) might be overcome either by a showing under 37 CFR 1.132 that any invention disclosed but not claimed in the reference was derived from the inventor of this application and is thus not the invention "by another," or by an appropriate showing under 37 CFR 1.131.

Baal teaches a reflective article, comprising a substrate (amorphous thermoplastic resin article), a primer coat, and a metallic coat (see col. 1, ln. 16-22). Baal further teaches the amorphous thermoplastic resin to be polyetherimides or polyethersulfone or polycarbonate (see col. 2, ln. 32-36); the primer coat to be plasma-polymerized silicone; and the metallic coat to be aluminum or silver (see col. 4, ln. 37-56).

Baal further teaches the silicone to be hexamethyldisilazane, and the aluminum layer to be about 70 nm (700 A) (see col. 7, ln. 3-7).

Contact Information

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thao T. Tran whose telephone number is 571-272-1080. The examiner can normally be reached on Monday-Friday, from 8:30 a.m. - 5:00 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, James Seidleck can be reached on 571-272-1078. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Application/Control Number: 10/638,099
